Annex A1

Proposed Amendments to the Bylaw

1 Article 1 is proposed to be amended with the addition of the following definitions:

Unified License means an individual license permitting a duly authorized service provider to provide any telecommunications services using any type of telecommunications infrastructure and technology capable of delivering the desired service.

Wholesale License means an individual license permitting the service provider to build, own and operate a public telecommunication network for the provision of public telecommunication services only to other Individual Licensed operators

General Class License means a class license permitting a service provider to provide any telecommunications services authorized under that license.

2 Article 11.2 is proposed to be amended as follows:

11.2 There shall be two types of individual license; the Unified License, and the Wholesale License, which shall, unless the Commission decides otherwise, permit the provision of any telecommunications network and telecommunications service, as per the conditions of that license

3 Article 11.3 shall be amended to:

11.3 The Commission shall issue licenses to provide mobile telecommunications services after obtaining the approval of the Council of Ministers pursuant to Article Five of the Act.

4 Article 11.4 is proposed to be amended as follows:

11.4 Class licenses shall be issued to authorize more than one service provider of the same class to provide telecommunications services or operate telecommunications networks, except as provided in paragraph 11.2 of this Article. Class licenses shall be subject to the following rules:

a. All class licenses shall impose identical conditions on all licensees in the class of service providers authorized by the license.

b. There shall one type of class license; the General Class License.

c. The Commission may establish additional types of class licenses.

d. In issuing class licenses, the Commission may determine qualification and licensing procedures in accordance with the Commission statutes.

e. Class licenses shall include a condition that every licensee in the class must file a registration with the Commission at least thirty (30) days prior to commencement of its service. The registration shall include the name of the service provider, its

address, a description of the service it will provide, and other basic service information specified in the class license

f. The Commission may suspend or revoke a registration for breach of the conditions of a class license. A suspension or revocation shall only occur after written notice to the licensee by the Commission and after a reasonable opportunity, not to be fewer than fifteen (15) days, has been given to the service provider to cure the breach

g. Prior to issuing a class license, the Commission may:

   i. publish a draft of the proposed class license containing the proposed conditions for the provision of telecommunications services or operation of networks by licensees in the class;

   ii. invite public comments to the Commission regarding the proposed class license; and

   iii. after taking into account any comments received, issue and publish the class license.

5 It is proposed to revoke Articles 11.5, 11.6 and 11.7.

6 It is proposed to renumber Article 11.8 to Article 11.5.
