Scope

This specification applies to citizen band radio and ancillary equipment.

Citizen band radio or CB radio is a land mobile radio system allowing short distance person-to-person bidirectional voice communication.

Enforcement

This specification shall enter into force on 01/06/2021.

Any previous version of this technical specification is withdrawn.

General Requirements

All equipment must comply with the requirement of CITC specification GEN001, be safe and must not adversely affect other electrical equipment.

All telecommunications and radio terminal equipment must comply with the relevant technical specifications established by CITC. In addition, such equipment may be subject to regulations for Declaration of Conformity or registration. See www.citc.gov.sa for details.

If more than one interface type is offered by a piece of equipment, each interface must meet the applicable technical specifications.

Further information on the characteristics and presentation of network interfaces can be found by visiting operator's website.

It is mandatory that test reports are obtained from a laboratory that has been accredited by a body that is a member of the ILAC Mutual Recognition Arrangement.

Limits and conditions

Testing should be carried out to ensure compliance with the listed specifications.

Frequency band	Max Output Power or Magnetic Field	Usage	Standard	Comments
26.965 – 27.405 MHz	4 W	Citizen Band Radio	EN 300 135 EN 301 489-13	

Licensing Requirements

No licensing requirements apply.

Additional Requirements

There is no additional requirements for this technical specification.

DRAFT

References

The following referenced documents are indispensable for the application of this document. If no issue or revision number is quoted along with the title of a technical specification or standard, the latest published version should be used.

EN 300 135-2

Electromagnetic compatibility and Radio spectrum Matters (ERM); Angle- modulated Citizens Band radio equipment (CEPT PR 27 Radio Equipment). Part 2: Harmonized EN covering essential requirements under article 3.2 of the R&TTE Directive.

EN 301 489-1

Electromagnetic compatibility and Radio spectrum Matters (ERM); Electromagnetic Compatibility (EMC) standard for radio equipment and services; Part 1: Common technical requirements.

EN 301 489-13

Electromagnetic compatibility and Radio spectrum Matters (ERM); Electromagnetic Compatibility (EMC) standard for radio equipment and services; Part 13: Specific condition for Citizens' Band (CB) radio and ancillary equipment (speech and non-speech).

History

For reference, the latest versions of the technical specifications are published on the CITC website www.citc.gov.sa.
