20.7 iDEN SERVICES

20.7.1 Dispatch / Direct Connect Service (DC):

Dispatch is an instant communications capability along the lines of a Walkie-talkie, provided by iDEN technology Motorola. This service is sometimes called push-to-talk (PTT), direct connect (DC) or radio dispatch service. The Dispatch service will be available in a small, easy to use, handset that is the same size as a standard GSM phone but with considerably more functionality. Communications are possible in a one-to-one (Private Call) or one-to-many (Group Call/Conference) format. It is specially targeted toward Business and Government Users.

Customers will be able also to make Push To Talk calls with other iDen users around the world if they subscribe for international Push To Talk (iPTT) facility. The iPTT will be available with Jordan and eventually will include other iDEN networks around the world.

There are eleven (11) plans to provide this service (Plan 1 to Plan 11) listed as follows:
